BREAKING BARRIERS IN BARRIER FILMS

**Sensible, Sustainable,
Secure & Superior
Solutions In Standard,
Niche Purpose And
Bespoken Applications
Of Poly Films.**

We Don't Just Use

We Live

Technology.

NPF is widely acknowledged as **India's most techno-cognizant manufacturer of Barrier Films, Plastic Packaging Films, Milk Pouches, Bale Wrap Films, Shrink Films, etc.**

The company's core competency -- its **highly evolved expertise in Polymer and Food Chemistries** -- combined with its state-of-the-tech plant featuring **best-in-class systems for CO Extrusion, Multicolour CI and Gravure Printing, Slitting and Bag Making** etc., produces **superlative quality Plastic Films**. These films find legions of applications in New Millennial life.

The cutting edge of NPF's techno-leadership is derived from its **unique, proprietary co-extrusion processes and customized resin blends**.

Its **premium raw material procurement, full-spectrum equipment array and optimal processes** enable it to manufacture foremost quality Barrier Films, Plastic Packaging Films and Pouches for liquids. The company also has **exceptional capabilities and expertise in custom design and manufacture, meeting a variety of specialized needs of customers**.

NPF is today counted among the world's finest Milk Pouch manufacturers and the most authentic flexible packaging manufacturer.

Because The Smartest Machine is the Human Mind

Shouldering NPF's market leadership, and spearheading its qualitative and quantitative drive into the future, is its **lead team of plastics industry veterans, technocrats and visionary managers.**

Around them, they have assimilated **a multifaceted human asset comprising technical and quality control experts, multi-skilled professionals with proven track records in diverse areas of plastics industry and technology, highly experienced managers, trained plant and field staff, marketing veterans and others.**

They all are bonded by a shared vision of consistent excellence and superior quality, which are ingrained in NPF's corporate culture.

And the aggregate expertise, knowhow, experience and industrial wisdom of this select human asset is what sustains NPF's distinct leadership in the industry.

And behind every product that comes to you is the collective excellence of this core team.

Advantage Emptor!

- Vacuum Pouch Packaging,
- Poly Mailers Packaging,
- Industrial Packaging,
- PE / Nylon / Evoh high barrier,
- Film Packaging,
- Shrink Hood Pallet Covers Packaging,
- Shrink Film Packaging, etc.

DRAWING UNDIMINISHING ENERGY FROM GROUP SYNERGY:

NPF, a part of the Navrang Group of Companies, is a privately owned company with a tradition of **reinvesting a significant part of its profits in upgradation of technology, production facilities and business methodologies.**

As part of a dynamic corporate conglomerate (Navrang Group) with multifaceted activities, NPF has access to multiple material resources and multiple manufacturing lines. This ensures uninterrupted production, uncompromised quality management, unswerving reliability and unfailing delivery lines -- your order is delivered as per exact specifications, on time, every time, time and again.

Changing With Changing Technologies

For long, **NPF** has enjoyed the reputation of being the most technologically advanced producer of Barrier Films in India.

Not surprising, because since its inception, the company has made it a point to evolve along with the techno-evolutions in the industry world-wide.

**8-colour Roto Gravure
Printing Machine**

**Total compliance to HACCP
& Food Safety Standards**

**Techno-partnership
with Kuhne
Windsor for extrusion**

**5-layer Blown Film Plant
